

# WHY WORK WITH A MEMBER OF TAN?

Members of Top Agent Network are the most experienced, well-connected real estate agents in your area. They help you better understand the local market, **so you can make smart real estate decisions.**

## Only the verified top 10% get in

Numbers don't lie. Our team analyzes closed residential sales data to make sure every agent we accept is ranked within the top 10% of their local market.

## True experts in their local areas

To be accepted, agents must have in-depth knowledge of their local housing market.

## Exclusive market intelligence

TAN members exchange market intelligence with other top agents in their area. That means members are the first to know about not-yet-on-MLS listings, motivated buyers and more.

This is why TAN members sell 9 out of 10 homes\*
